

Good Photos

Great close-up shot!

Another good shot. Well-cropped.

Good idea getting some parent's in the shot.

Great idea getting a picture of the cake and decorations.

Good idea to get kids in transition. Kneeling down would have made this a better shot.

Good close-up action shot.

A couple of good party room shots. Most of the kids are facing the camera.

Make sure the birthday child is in the picture.

Well done

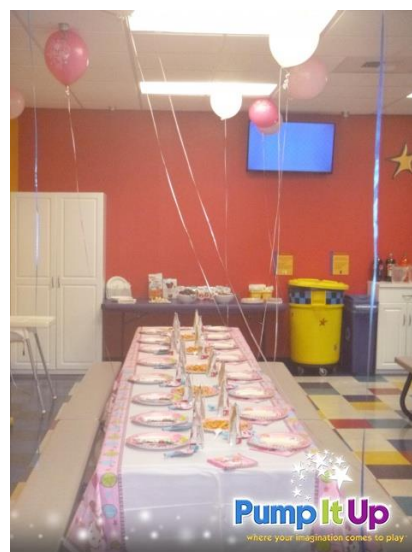

Nice smile!

Great shot! Maybe could be zoomed in a little bit, but good composition overall.

Good idea – table looks great. Maybe take it at an angle so the trash can isn't in the background...

Shots that could be better...

Avoid taking pictures of kids' backs. Get around front and get closer so we can see their faces.

Good idea, but too far away. Action shots may be difficult...

Not bad, but zooming in would help to see the kids' face

Don't take pictures through the netting. Even if you get right up to it the result is fuzzy.

A collection of pictures of people's backs. In general, not very interesting...
